MADI MINERALS PROVIDES UPDATE ON GEORGINA PROGRAM

Vancouver, British Columbia, December 14, 2022: Madi Minerals Ltd. (the "Company" or "Madi") (CSE: MADI) is pleased to provide an update to its exploration program on the Georgina Au-Cu-V Project. The Georgina Property consists of one mineral claim covering an area of 2,069 ha approximately 20 km south of the coastal town of Sayward; 105 km north of Campbell River on Vancouver Island, within the Nanaimo Mining Division.

Madi Minerals Ltd. has completed the Phase 2 exploration programme on the Georgina Property by the collected 412 soil samples, 19 rocks and 42 pit samples.

The soil grid was extended which resulted in the discovery of several individual soil anomalies of 686 ppb Au, 560 ppm Cu, and 505 ppm V. Additionally, two new copper - gold discoveries were made, one in the southwestern portion of the property and one in the southeastern portion of the property.

Rock samples from the southeastern zone returned highs of 20 ppb Au and 2.32% Cu from outcrop samples whilst soil samples from the southwestern grid returned highs of 65.1 Au and 373 ppm V.

Horizon pit sampling on previously identified gold and copper anomalies has returned high gold values of 1370 ppb, 1580 ppb and 2000 ppb respectively.

Derrick Strickland, P. Geo. (1000315), has reviewed and approved the technical content of this news release.
